Current and previous projects*

Industry	Subject	Location
Oil & Gas	Heat exchangers and gas reformer	USA / UK
Welding Consumables	Development of new production processes	UK
Automotive	Electric and hybrid cars	Japan
Automotive	Bi-metal engine parts	Germany
Automotive	Racing cars	UK
Aerospace	Jet engine	UK
Aerospace	Aircraft power systems	France / UK
Power Generation	Gas turbines	Germany
Micro-Electronics	Microwave guides and duplexers	UK
Vacuum Systems	Bi-metal flanges and couplings	USA
Nuclear	Joining dissimilar alloys	UK / India
Energy Storage	High capacity capacitors	France
Ultrasonic	Bonding piezoelectric crystals to metals	UK
Sensors (+800°C)	Bonding steel to alumina	Japan

* *Due to confidentially agreements, sponsors' names and details of the projects can not be disclosed.*
